

“Improving The Health Quality Awareness” EVS PROJECT INFOPACK

ABOUT COORDINATING ORGANIZATION

Pi Youth Association is a non-profit organisation who works on youth rights and issues. It was established in 14 March 2014. Pi Youth Association maintains activities regularly for members and volunteers composed youngsters. Besides these activities, regional, national and international projects produces, enforces and develops partnership on identified 6 work topics. Every individual who lives in Turkey between the ages of 15 and 30, especially young people who are disadvantaged in social, economic, geographical, etc. who enter into women, disabled, refugee and minority classes, is in the target group of Pi Youth Association.

Our association aims at both working on rights and problems of the youth like woman & people with disabilities in the society and contributing to their development without being unhealthy and behind the times. Besides, we carry on our works for popularizing the volunteering between the youth and being high level of participation in volunteering activities.

Our association is member of various corporate networks related to mission topics in order to both increase our corporate capacity and the national&international effects of activities and follow the developments. ABOUT HOSTING ORGANIZATON

Our association was founded to have sensitiveness and information about each topic and field affecting human health directly or indirectly. In short 'SAĞKAL', prepares projects about quality of life and health. SAĞKAL helps interiorise to health institutions and organizations by working with them. It affects the policies of the private sector and public institutions on the production of goods and services. It tries to increase the sense of quality when purchasing goods or services that support health services. At the same time, It carries out activities In order to make products and services more suitable for human health. It educates institutions to carry out this, supports the establishing processes, provides identifying rules and making them good. Our mission SAĞKAL Association was founded to improve the quality standards depending health and health services on each process. It carries out needed activities to apply these standards in a disciplined and healthy way. It develops the rules of health quality and continues promoting. As our mission SAĞKAL, we give seminars and conferences in topics related fields to our works to our members, society, professional organizations, public and private organizations. In addition to the quality in the health and health sector, It conducts research and activities towards upgrading life and health quality and solutions of social, psychological and economic problems which affect health directly and indirectly. The SAĞKAL association takes in a partnership with all institutions and organizations in accordance with this purpose.

Our current focus :

- We accelerate the development of quality processes in health sector.
- To follow changing national and international laws and regulations day by day in the sector to apply and rapidly adapt to the adequacy of quality and quality management processes in health, and to prepare and give education projects.
- We give needed education for disadvantaged individuals who need psychological, social and economic rehabilitation in order to protect the societies' and individuals' physical and cognitive health.

During the treatments they had in İzmir, we provide free education, food and accomodation support with our 2 branch offices to women having educational, social, economic, geographical and cultural disadvantages and coming from outside the city. There are 2 facilities of our association that we give the name of Umut Evi. The one is in İzmir Karamanlar with 6 persons and the other is in İzmir Balçova with 10 persons. In these facilities, we provide free education, food and accomodation support to women coming from outside of the city and having cancer treatment in İzmir during their treatments. Moreover, our Kahramanlar facility has 35 and Balçova facility has 70 seats seminar/training hall. The president and legal representative of our association Op. Dr. Cüneyt Tuğrul is an general surgical specialist.

ABOUT PROJECT

Project Name	: Improving The Health Quality Awareness
Project Venue	: İzmir – Turkey
Project Dates	: 1th July 2018 – 30th June 2019
Project Duration	: 12 Months
Number Of Volunteers	: 1 Person

Since the beginning of the emergence of technological developments in social media and the concept of social media, healthy life and social media have been perceived and explained as two contrasting situations. However, when social media and healthy life are told to people correctly and a correct consciousness is created in both ways, it is better to understand how useful and necessary these two are for mankind. We plan to focus on social media and quality wellness with our "Improving the Health Quality Awareness" project.

Our project, which will involve one volunteer, is a 12 month long European Voluntary Service project. In our project, which will take place at the home of the "Sağkal Association" in İzmir, our participants will participate in healthy living, reducing the risk of cancer, other young people in the locality who will increase their knowledge and experience on the issues will be aware of the young women with cancer who benefit from the activities of the Sağkal Association and their companions. Apart from health topics, our participants who will take trainings in social media and digital skills (photography, picture and video editing) will also have the opportunity to apply these knowledge and skills in the project. This will be an important contribution to the institutional capacity of the host institution.

The duration of the project, which will last 18 months in total, is between July 1, 2018 and June 30, 2019. Participants will be trained, target group activities and practices will use common and spontaneous learning methods. At the same time, our participants will take Turkish language training within the scope of our project. With the implementation of the project, institutional capacities will develop in the short term such as international volunteerism, new partnership relations, visibility of the activities of the host institution and other partners. In the long term, new project partnerships will be developed under the European dimension. Our partners who carry out many successful activities in our own place with our project will carry these studies to international level and share their knowledge and experience in an institutional sense.
